Correspondence of the Whig & Courier ] Ur BRYOND LA GRANGE, August 31.

Ma Paurgh, What in the world is the cance of auch flocking of the People into the country just at this time. Our road has been thronged for the last week, and it really looks as if the Spirit of speculation was abroad in the land as it was in '35. Among those who have henored our little town with their presencetoday, one Jos Charc, Ex Surveyor General, of Schoo, William R. Miller, Post Master of Howland, Bievens Davis, Esq Register of Pecds, Bangor, and one Prescott, Esq Ex-Reporder of the Municipal Court, Bangor

If it was not such a dreadful busy time with we I would come down and see you, for I could ary what I have to say much better than I ann wmith it, for I sint anoth used to writing and I don't know as you will be able to read what I have written, my hand trembles so. Hard

It must have made 'em laugh. All but the article from the Republican man what was talking and I guess he'd a laughed if he had known the Squire as well as I do, but as I was saying Squire Davis did 'nt say any thing about the election. All he talked about was Biddle, the Bink, and the Sub Treasury by every means in their power, to destroy the and I spose I should think jost as he does if I regutation of every influential democrat, who knew as much I tried to larn all I could poses. We seldon take any notice of their while he was here, so I asked him what the bank had ever done that was bad. He said it People was invaded, and an American priviledge | hadent done any thing yet, it hid only been in opperation about forty years yet, but he was affraid of whit it would do, and when I asked him wat that was, he shook his head and look'd wise, as much as to say it won't do for every body to know it, and so I said no more about it, but concluded it was like the doings of the seceet session, not proper for common people to

> Squire Present wa'nt lectioneering, I think I supposed he came to help squire. Divis drive his cows home, for they are trensitually critters to drive at sartin times. Besides I spose he thought 'twould be good for his health, for he looks dreadfully, he's either sick or under consarn of mind, or has lost some rear relation Some of my neighbors were bad enough to say, that what made him look so, was that he was affraid Fairfield wouldent be elected and he should be disapointed of an office, but let it be him She's in a critical state of health, and I dident know what the effect might be, so I thought I d just break the ice a hitle in case she should see him, and so says I, Nancy should you be frightened if you should see a man a leetle hombier than I am . I see the colour come in her face in a minute, for she thought I doubted her courage, and she prides hereelf on that Saysshe Pete, (she always calls me Pete when her dander is raised) Says she, Petel Says I, what Say whe, do you-think I was brought up in the woods to be skeer'd at an

It's possible Squire Chase was electioneering, whether for himselt or for somebody elsé I don t know; but this I can tell hun, I think he can t be elected by the people till he accounts for his conduct during the last war. I have heard tell that Squire Chase said when he come home after the war that he was abound the Chespenk in Committee. thirty, minutes after she struck to the British Now if that was the case I want to know where he was thirty minutes before she struck; if he can answer this satisfactorily, then I will ask hun another

For aught I know, Squire Miller might be electioneering. Some said he was fishing to be representative but he can't go that till the resolve for selling our territory, for which he vo ted, is expunged. I don't mean expunged from the records, for I don't hold to that, but it must think he won't live to see that day If they did come to lectionser, I can save them a deal apers touching the abolition of slavery, or the of trouble, for I can tell them exactly how the to try and turn us they can t come it, no how, the progress of roads in the east, knows no bounds

> Fuller had left the law business and gone, tai party driving stage, and he a the most generous driver we ever had on our route, for he brings a power of papers when he comes and gives them away as free as dirt, and if he finds any bundles in the office that he thinks belongs to poor folks he takes them out, pays the postage, and carries them to them. Aim t that elever? Do you know if Squire Fuller is aworn?

But Mr Printer I wish these folks would wait to stop and hear their long yarns and it is a dreadful bother, every minute counts now and we are desput anxious to get done harvesting If they will put off their visits till after harvest, I for one should be glad to see 'em, and I ll set down and arguly the topic with 'em

Yours till death.

PETER WIGGIS P. S. I ve heard say that most every town in the county is blessed with the same kind of vis- voles each itors. But Mr Printer we do not like to be blest to death. They say that Squire Jewett, Ex-County Attorney, and Squire Stetson, Ex-Clerk ate of the Courts, and an Ex Deputy Sheriff, by name of Sirickland, and a host of others, have taken a great liking to the country lately. Some go after their cows Some go a fishing-and some to see the dear people, but I guess they are all fishing for office, and the way they Il get disappointed, Mr Printer will be a caution Do tell, if all that go into the country now are office holders, ex-office-holders and expectants last a fact that the people up to Lincoln dident. want to hear Squire Wiggins speech, and said they could do their business without the help of Bungor lawyers. How great the prostration of all the corporeal powers after a copious bleeding On the contrary what agility and strength is felt after a dose of this medicine; the body is indeed lightened of a load. Nothing is equal to ridding the vitialed liumors with a vegetable medicine of this kind which 84 years have proved never to do injury, but always good. Is the pulse too high? A dose of these Pills will bring it down Is it too iow I the same means will increase it to a proper standard. Is it tremulous, slowing nervous excitement I the Pills by soo long the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr B who have for many years been in the habi of heng bled as often as four times in a year, and whose constitutions in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared instead of running to a Doctor and hav पु a vem opened, they have swallowed six or eight Pills, which soon removed the vittated humors that were impeding the blood in its circulation. Those ensible people simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind which, by the practice of bleeding, sere both becoming dreadfully impaired.

This is to cermin that Thomas S Brown of

Greenwich, Cl. was taken with a cold, numb feel ing on the 13th of June last. He began specough and raise phlegm and in the course of twenty four hours about two querts of theck white jelly was experturated. Three physicians in Hamford Groen wich, and Sawous, pronounced it a nersous homid spasmodic Asthma and after presenting for some time to no effect, the three consulted together, and pain was excessive in all parts of his body, and the difficulty in breatling was such as almost to cause strangulation. He was reduced to a mere skeleton, and finally gave himself up to death. After being in this miserable state nearly two months, he saw an advertisement of Dr. Brandreth's Vegetable Uni-Produce on terms that cannot fad to please purchafour months according to the direction, is entirely

THE most safe, effectual and economical remedy for diseases of the Human Constitution, that has ever been\_discovered

These Pills are composed entirely of materials extracted from Medical Plants, and are warranted not to contain one particle of mercury or any mineral substance Dr Kingley, the inventor of this valuable medicine, from his knowledge of the human ystem derived from a long and extensive practice has arrived to the conclusion, that the great and primary cause of most diseases is a derargement in the functions of the liver, or in other words an increased or diminished secretion of the Bile

So well is this understood, that it is common for per-ons to say when they feel unwell that they are bilions meaning that they have too much bile in the stoniach. On the other hand, when the flow of hile is diminished, the process of digestion is imperfectly performed the patient becomes weak and emaciated linally declared that they could do him no good, it because nourishment contained in the food taken into 8 goods an assortment can be found at 62 Mam would and must result in consumption, and death the stomach is not properly extracted, and the food at any store in the city, all of which would ensue, and that in a very short time. The is ejected in a crude state. Dr Kingley is confident that the famous Hygean I heary so called that impurity of the blood is the cause of all diseases," a great absurdity Every one who reflects upon the subject a moment, will perceive that impurity of the blood is a secondary, not a primary complaintthe effect, and not the cause of the divease versal Pills, and immediately sent by (apt. 7, War the functions of the liver are deranged, and the flow come's ningled with the blood as in Jaundice, when impurity of the blood is caused by an increased flow of the hile, and to remedy it you must correct the secretion of the his or and restore it to a healthy state

Dr. Kingley has spent much time in experiment ing with different vegetable medicines, for diseases of the liver, and now offers his Universal Family Pills as the best, most convenient and cheapest medicine that can be prepared for general use; and in offering them to the public, he is actuated more by henevolent than pecuniary motives, as the price

of the medicine will show. Dr Kingley flatters himself that his long experi menting with vegetable medicines has enabled him o discover the time and only substitute answering all the purpose of mercurials, without any of their attendant evils. One great quality of his family Pills is, that they have the alterative principle combuild with their esthartic or operative quality, so hat they not only cleanse the stomach and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs, purify the blood, invigorate the circulation, and give one and energy to the nervous system

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the first dose. They can be taken with safety by persons of any age and the feeble, the infirm, the nervous, the delicate, are strengthened by their operation, because they clear the system of bad humors, quiet nervous irritabilities and restlessness, from whatever source, and invariably produce sound

jaundice, sick and -nervous lieadache, dysgepsia, costiveness, sickness of the stomach, hearthurn, all bilious complaints, tevers of all kinds, and if taken at the commencement will invariably check their progress, and save the patient from a protracted and dangerous aickness. They are invaluable 'in nervous and hypochondriacal affections loss of appetite, and all complaints to which females wide are anbject. They eperate as a mild and speed) purge, and are a safe and certain remedy for worms in chuldren

I might publish a small volume of certificates but onsider it unnecessary, as the medicine will recommend strell to all who will make trial of st JOHN KINGLEY.

These Pills are put up in neat boxes of two sizes, the small size contains 25 Pills and the retail price is 25 cents, the large size contains 60 Pills, the price is
